

Kingfisher Spruce™ SG8 & SG10 Range

BPIR Declaration

Version: V1 2024

Designated building product: Class 1

Declaration

ATS Timber Ltd has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

Name	Kingfisher Spruce™ SG8 & SG10 Range
Identifier	Kingfisher Spruce

Description

Kingfisher Spruce™ is a kiln dried, solid timber, imported from Europe for use both structurally and visually within the residential and commercial sector.

Kingfisher Spruce™ is available gauged and bandsawn in a variety of sizes and 4.8 or 6m lengths. It is an untreated timber of a superior visual grade, strength and stability.

Scope of use

Kingfisher Spruce™ may not be used in situations where it may be in direct contact with the ground. It is visually graded to a No.1 frame so there will be knots. It is not a sanded and sealed product and will require additional finishing work.

Surface splintering may occur during the kiln drying process due to drying stresses in the larger sizes.

If staining is done it is recommended that samples are done to ensure the desired result can be achieved. A sanding sealer, gel stain or toner is recommended when colouring Spruce.

Conditions of use

Installation requirements

Kingfisher Spruce™ is to be installed in accordance with the specifications and installation details described in NZ3604 or as detailed by a Chartered Professional Engineer and good building practice.

Quality Assurance

ATS Timber as strict quality assurance processes in placed to monitor that Kingfisher Spruce™ adequately satisfies structural and visual requirements. Grade right (NZ) Ltd has been contracted to undertake independent, third party auditing of the Machine Stress Grading processes at our site. Independent audit inspections are carried out quarterly and include:

- Audit of the Machine Stress Grading process and procedures;
- Assessing the competence of personnel in relation to skills and knowledge requirements;
- Verification of the calibration of testing equipment.

Sustainability

Kingfisher Spruce™ is supplied to ATS Timber PEFC Certified.

Contributions to compliance

Kingfisher Spruce™ complies with:

NZ3603:1993A4 Timber structures standard.
NZ3604:2011 Timber-framed buildings.
NZ3622:2004 Verification of timber properties.
NZ3631:1988 New Zealand timber grading rules
