

Weka SG8™ Pine Range

BPIR Declaration

Version: V1 2024

Designated building product: Class 1

Declaration

ATS Timber has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product

Name	Weka SG8™ Pine Range
Identifier	Weka SG8 Wet

Description

Weka SG8™ Pine Range is a wet, solid radiata pine timber product that is manufactured locally for use both structurally and visually within the residential and commercial sector.

Weka SG8™ is available as rough sawn, gauged and bandsawn finish in a variety of sizes and 3.6, 4.8, 6.0 and 7.2m lengths. It is available in H4 CCA, H5 CCA and H6 CCA treatments.

Scope of use

Weka SG8™ may be used in outdoor situations dependent on the specified treatment level. It is visually graded to a No.1 frame. Please refer to the current Weka SG8™ features and benefits literature within our Timber Book. Weka SG8™ is structurally verified.

Conditions of use

Installation requirements

Weka SG8™ is to be installed in accordance with the specifications and installation details described in NZS3604 or as detailed by a Chartered Professional Engineer, and good building practice.

Quality Assurance

ATS Timber has strict quality assurance processes in place to monitor that Weka SG8™ adequately satisfies structural and visual requirements. Grade Right (NZ) Ltd has been contracted to undertake independent, third party auditing of the Machine Stress Grading processes at our site. Independent audit inspections are carried out quarterly and include:

- Audit of the Machine Stress Grading process and procedures
- Assessing the competence of personnel in relation to skills and knowledge requirements
- Verification of the calibration of testing equipment.

Sustainability

Weka SG8™ is sawn from plantation pine grown in New Zealand and is manufactured at our local sawmill. Please see supporting documents for further information.

Contributions to compliance

Weka SG8™ complies with:

NZS3603:1993A4 Timber structures standard.

NZS3604:2011 Timber-framed buildings.

NZS3622:2004 Verification of timber properties.

NZS3640:2003 Chemical preservation of round and sawn timber.

NZS3631:1988 New Zealand timber grading rules.
