

Kingfisher SG8™ Pine Range

BPIR Declaration

Version: V1 2024

Designated building product: Class 1

Declaration

ATS Timber has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

Name	Kingfisher SG8™ Pine Range
Identifier	Kingfisher SG8™

Description

Kingfisher SG8™ Pine Range is a kiln dried, solid radiata pine timber product that is manufactured locally for use both structurally and visually within the residential and commercial sector.

Kingfisher SG8™ is available in sawn, gauged and bandsawn finish in a variety of sizes and 4.8 or 6m lengths. It is available in H1.2 Boron treated, H3.1 LOSP and H3.2 CCA treatments.

Scope of use

Kingfisher SG8™ may not be used in situations where it may be in direct contact with the ground. It is visually graded to a No.1 frame i.e. not clears. It is not a sanded and sealed product and will require additional finishing work.

Please refer to the current Kingfisher SG8™ features and benefits literature within our Timber Book.

Kingfisher SG8™ is structurally verified.

Conditions of use

Installation requirements

Kingfisher SG8™ is to be installed in accordance with the specifications and installation details described in NZS3604 or as detailed by a Chartered Professional Engineer, and good building practice.

Quality Assurance

ATS Timber has strict quality assurance processes in place to monitor that Kingfisher SG8™ adequately satisfies structural and visual requirements. Grade Right (NZ) Ltd has been contracted to undertake independent, third party auditing of the Machine Stress Grading processes at our site. Independent audit inspections are carried out quarterly and include:

- Audit of the Machine Stress Grading process and procedures
- Assessing the competence of personnel in relation to skills and knowledge requirements
- Verification of the calibration of testing equipment

Sustainability

Kingfisher SG8™ is sawn from plantation pine grown in New Zealand is manufactured at our local sawmill. Please see supporting documents for further information.

Contributions to compliance

Kingfisher SG8™ complies with:

NZS3603:1993A4 Timber structures standard.

NZS3604:2011 Timber framed buildings.

NZS3622:2004 Verification of timber properties.
