

Class 1

## Weka SG8™ Pine Range

Product Disclosure Information Self-Assessment

Version: V1 2023

<b>Product name</b>	Weka SG8™ Pine Range
<b>Product line</b>	
<b>Product identifier</b>	Weka SG8 Wet

### Product description

Weka SG8™ Pine Range is a wet, solid radiata pine timber product that is manufactured locally for use both structurally and visually within the residential and commercial sector.

Weka SG8™ is available as rough sawn, gauged and bandsawn finish in a variety of sizes and 3.6, 4.8, 6.0 and 7.2m lengths. It is available in H4 CCA, H5 CCA and H6 CCA treatments.

### Relevant building code clauses

### Contributions to compliance

Weka SG8™ complies with: NZS3603:1993A4 Timber structures standard. NZS3604:2011 Timber-framed buildings. NZS3622:2004 Verification of timber properties. NZS3640:2003 Chemical preservation of round and sawn timber. NZS3631:1988 New Zealand timber grading rules.

### Scope of use

Weka SG8™ may be used in outdoor situations dependant on the specified treatment level. It is visually graded to a No.1 frame.

Please refer to the current Weka SG8™ features and benefits literature within our Timber Book. Weka SG8™ is structurally verified.

### Conditions of use

Installation requirements

First party self-assessment generated Oct 18, 2023 with BPIR Ready.

Weka SG8™ is to be installed in accordance with the specifications and installation details described in NZS3604 or as detailed by a Chartered Professional Engineer, and good building practice.

Quality Assurance

ATS Timber has strict quality assurance processes in place to monitor that Weka SG8™ adequately satisfies structural and visual requirements. Grade Right (NZ) Ltd has been contracted to undertake independent, third party auditing of the Machine Stress Grading processes at our site. Independent audit inspections are carried out quarterly and include: • Audit of the Machine Stress Grading process and procedures • Assessing the competence of personnel in relation to skills and knowledge requirements • Verification of the calibration of testing equipment

Sustainability

Weka SG8™ is sawn from plantation pine grown in New Zealand and is manufactured at our local sawmill.
