Product/system

| | |
|------------|--------------|
| Name | Weka Decking |
| Identifier | Weka Decking |

Description

Weka Decking boards are a wet, solid radiata pine timber product that are manufactured locally for use within the residential and commercial sector.

Weka Decking is a premium decking available as a smooth or grip tread profiles and has bandsawn option.

Decking widths are 90x32 and 140x32 and in 4.8 and 6.0m lengths. Weka Decking comes either H3.2 CCA or H4 CCA. H5 available on request.

Scope of use

Weka Decking boards are for use in outdoor situations dependent on the specified treatment level and is visually graded for quality with minimal defects but visible character within the wood grain.

Please refer to the current Weka Decking features and benefits literature within our Timber Book.

Conditions of use

Installation requirements

Weka Decking boards are to be installed in accordance with good building practice or as detailed by a Chartered Professional Engineer.

Weka Decking requires an annual clean plus sanding and staining every 1-2 years.

Quality Assurance

ATS Timber has strict quality assurance processes in place to monitor that Weka Decking adequately satisfies structural and visual requirements.

Sustainability

Weka Decking is sawn from plantation pine grown in New Zealand and is manufactured at our local sawmill. Please see supporting documents for further information.

Contributions to compliance

Weka Decking boards complies with:

NZ3631:1988 New Zealand timber grading rules.

NZ3603:1993 Timber structures standard.

NZ3602:2003 Timber and wood-based products for use in buildings.

NZ3640:2003 Chemical preservation of round and sawn timber.

NZ3604:2011 Timber-framed buildings.
