

Kingfisher SG10 Pine Range

BPIR Declaration

Version: V1 2024

Designated building product: Class 1

Declaration

ATS Timber has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

Name	Kingfisher SG10 Pine Range
Identifier	Kingfisher SG10

Description

Kingfisher SG10 Pine Range is a kiln dried, radiata pine, solid timber product that is manufactured in New Zealand for use both structurally and visually within the residential and commercial sector.

Kingfisher SG10 is available as a gauged timber in limited sizes and in 4.8 or 6m lengths. It is available in H3.2 CCA treatment.

Scope of use

Kingfisher SG10 may not be used in situations where it may be in direct contact with the ground. It is visually graded to a No.1 frame i.e. not clears. It is not a sanded and sealed product and will require additional finishing work.

Kingfisher SG10 is structurally verified.

Conditions of use

Installation requirements

Kingfisher SG10 is to be installed in accordance with the specifications and installation details described in NZS3604 or as detailed by a Chartered Professional Engineer, and good building practice.

Sustainability

Kingfisher SG10 is sawn from plantation pine grown in New Zealand. Please see supporting documents for further information/

Contributions to compliance

Kingfisher SG10 complies with:

NZS3603:1993A4 Timber structures standard.

NZSS3604:2011 Timber-framed buildings.

NZS3622:2004 Verification of timber properties.

NZS3640:2003 Chemical preservation of round and sawn timber.

NZS3631:1988 New Zealand timber grading rules.
